DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose, teach or suggest a method of treatment for improving the appearance of a skin by applying electromagnetic energy, in conjunction of a wound healing composition, to subsurface layers of undamaged skin without thermally damaging the epidermis as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

US Patent No. 6,663,659, to McDaniel discloses a method for rejuvenating the skin of a patient with the aide of electromagnetic irradiation, without thermally damaging the skin (see col. 2 line 66 to col. 3, line 9). However, he fails to teach the use of would-healing composition in conjunction with the electromagnetic irradiation as claimed.
